Data Scientist (Time-series, NLP, LLM) | PhD in Energy Flexibility | MLOps / AIOps Engineer

Education

UNIV. GRENOBLE ALPES

DOCTORATE

📅 Avr. 2022 📍 Grenoble, France

- Title : Nudging electricity consumption in households : A case study of French residential sector
 - Design of ecological **nudge** based alerts by using **behavioral science**
 - Data engineering** of energy consumption of 175 French households
 - Impact analysis of **nudges** using **data science** and **econometrics**

Skills

LANGUAGES

• French • English • Urdu

DATABASE TOOLS

• SQLite • InfluxDB
• PostgreSQL • MongoDB

DEVELOPMENT

• Python (+ **uv**) • PyTest • asyncio
• PyDantic • FastAPI • Sphinx
• Great Docs • Streamlit

DATA ANALYSIS

• SQL • Pandas • pySpark
• Polars • Plotly (+ **Dash**)

ARTIFICIAL INTELLIGENCE

• Scikit-Learn • Tensorflow
• PyTorch • SpaCy
• HuggingFace • Ollama
• LangChain • LangGraph

MLOPS / AIOPS

• MakeFile • Yaml • Toml
• MLFlow • Kedro • BentoML
• Grafana • DVC • Docker
• Github + Gitlab (CI/CD)
• Pre-Commit • Docker • n8n

CLOUD

• DataBricks • Amazon AWS
• Microsoft Azure

Current Work Experience

RESEARCH ENGINEER - NLP | AI

G2ELAB - GRENOBLE ELECTRICAL ENGINEERING LAB

📅 Dec. 2023 – Present 📍 Grenoble, France

- Management of **ETL pipeline** for data extraction, **NLP processing** of textual time series data and storage in a **noSQL database**.
- Creation and validation of **events related time-series variables** for their impact on the **prediction of energy consumption** using **ML/AI**.

JURY MEMBER - AI DEVELOPER (RNCP 34757)

SIMPLON CO.

📅 Feb 2026 – Present 📍 Auvergne Rhône Alpes, France

- Accrediation completed, the projects to be assigned

ADJUNCT PROFESSOR

GRENOBLE INP - ENSE3

📅 Sep 2022 – Present 📍 Grenoble, France

- English** and Communication (1st Year - French Track)
- Machine Learning** (3rd Year - French Track)
- Machine Learning and **Optimisation** (Master 2nd Year - Intl. Track)

Past Work Experience

SOFTWARE ENGINEERING EXPERT

CSTB - SCIENTIFIC AND TECHNICAL CENTER FOR BUILDINGS

📅 Mars 2023 – Nov. 2023 📍 Grenoble, France

- Implemation of **end-to-end time-series data management**, including **API-driven data sharing** to downstream ML users of:
 - a French project « **Observatoire de la Transition Energétique** »
 - and a European project « **COLLECTiEF** »

COMPUTATIONAL SCIENCE EXPERT

NANOelec

📅 Mars 2022 – Fev. 2023 📍 Grenoble, France

- Implementation of a **data orchestration** of time-series data to quantify **energy flexibility** in a French academic building.

Certification

PROJECT MANAGEMENT AND PLANNING

JOHNS HOPKINS UNIVERSITY

📅 Apr. 2026 📍 Baltimore, Maryland, USA

Recent Publication
